

How to use our website.

- I just want to order some cookies:
That's easy, Just click [HERE](#) to go to our products pages. Add some items to the shopping cart and then click the "Proceed to Checkout" button on the shopping cart page. On the checkout page, fill in your billing address details. If you want to ship to a different address, click the "Ship to different address?" button at the bottom of the left hand column.
What's the catch?: There are a couple. Your order information is not stored and You can only ship to one address at a time.
- What is the advantage of creating an account?
 - Your orders history is retained
 - You can ship to multiple addresses with one easy checkout
 - A permanent address book is established.You can register from the My Account page [HERE](#). You can also log into your account at the same location.
- How does the Ship to Multiple Addresses button in the Shopping Cart work for registered users?

When you create an account and are logged in, you will see a "Ship to Multiple Addresses" button in the shopping cart. This is used to ship the item/items that you have in your cart to multiple people easily.

When you (1) click the "Ship to Multiple Addresses" button, the website saves the combination and quantity of items in your cart and takes you to a page where you can (2) select recipients from your address book. You may also (3) add people to your address book on this page. (4) Click the "Ship to this address" button below a recipient's address to change the address's color and select it to receive a package containing the items in your shopping cart. Next, (5) click the "Done Selecting Addresses" button and the combination and quantity of items that was in your shopping cart will be copied to each selected recipient. You will be presented with a list of all the items and people/addresses you chose. (6) Click "Save Quantities and Addresses" to proceed to the Checkout page.

If, when on the Checkout page, you need to make changes to the items or recipients listed in your order, you can click the "Modify/Add address" button to return to the Shipping Addresses page.

If you have forgotten to include a recipient in your order, go to the Checkout page and click the "Modify/Add address" button. That takes you to the Shipping Addresses page where you can again click "Ship to multiple addresses." If you choose "Ship to multiple addresses" you will be taken to the Address Selection page where you can choose an additional person/address. Only select the additional recipient(s) and then click "Done Selecting Addresses." The item previously chosen will be copied to the shipment for this newly selected person/address. This comes in handy, for example, if you originally forgot to include your Aunt Bettie and wish to include her in this order.
